

I DO NOT want or welcome any proposal of federal law that will lesson Indiana exsiting Telephone privacy law. I am sick and tired of people who think my private phone number is up for grabs to use as they see fit. This includes anyone I have formerly done business with! If I wanted to talk to them I would call them besides don't you think there is a good reason I don't deal with them anymore? If I switch the places I do businees with it's because I'm not happy. So you tell me why I would want them calling me! Granted I don't have big money to donate to get my way but I do pay taxes and I vote and I'm telling you to leave Indiana's telephone privacy law alone. We do not need or want your help in this matter. So please leave it alone. Let these people annoy you and your friends and leave me out. I love the Indiana telephnoe privacy law. I'm not afraid to anwser my phone any more. I don't spend half the day telling people not to call me anymore or to tell them to get a real job. If the FCC passes this lame law I will have to do what to insure my privacy and peace and quite? Change my phone number every month or better yet drop the land line any pay for a cellular phone? Oh, I have a better idea how about if the Fcc gets this wothless law passed that the Fcc and the buinesses who will then be allowed to harass me pay me every moth what it costs to have my phone hooked up!! After all you guys are acting like you have the right to tell me who can and can't call my number like it is yours you should pay for it to!!!!!!!!!!!!!!
